

TRAVELLING WITH CHILDREN

Accidentally separated onboard or at a stop?

- Don't panic!
- Press the emergency help button located at every door or on the platform.
- Know your plan before you travel. Who is staying put and who is moving to meet back.
- Children should know who to approach: CMET staff, a parent with a child or someone in a uniform.

Across our integrated network, the safety of our customers, community and staff is our number one priority.

So that everyone enjoys their journey on the light rail, here are a few simple tips when travelling with children.

Prams

- At the stop keep your pram parallel (sideways) to the tracks, behind the yellow line.
- When waiting at the stop be mindful of slopes and high winds which can cause your pram to roll.
- Always apply the brakes and restrain your child in the pram.
- When on board the LRV, be sure to hold on to your pram at all times and ensure that you also use the provided handrails.
- Board and exit the LRV with the pram in front of you, lifting the front wheels over the small gap.

Please hold on

If travelling with young children on the light rail, hold their hand while waiting at the stop and getting on and off the Light Rail Vehicle (LRV).

Waiting at the stop

- When accessing light rail stops remember to only cross the road and tracks at designated crossings and watch out for LRVs coming from both directions.
- When waiting at a stop, stand back from the tracks behind the yellow line.
- Please keep the doorways clear and wait for all customers to exit before you board.
- Allow customers with mobility impairment, wheelchairs or those with prams, to board first.
