## Did you know that the Light Rail Vehicles can carry bicycles on board?

Please ensure you board and exit with your bicycle through the double doors. Upon boarding, place your bicycle into one of the 4 bicycle racks provided. If all of the bicycle racks are occupied, you will have to wait for the next available Light Rail Vehicle (LRV). Always remember to dismount when boarding and alighting the LRV. Bicycles can also be carried on Transport Canberra buses.

### Steps to **load** the bicycle into the bracket:

1. Use the bracket against the wall first, decide which way to mount the bicycle - front to back is usually best
2. Raise the wheel up to the side of the bracket (high enough to slip into the hook)
3. Move the wheel sideways into the hook of the bracket
4. Lower the wheel down into the wings of the bracket

### Steps to **unload** the bicycle out of the bracket:

1. If necessary, adjust the adjacent bicycle slightly to allow for ease of access to your bicycle
2. Raise the wheel up (high enough to slip out of the hook)
3. Move the wheel sideways out of the hook of the bracket
4. Lower the wheel down to the floor and safely wheel your bicycle from the LRV
