

Lifecycle partnerships create better outcomes for now, and the future.

From Concept to Operations: The Canberra Light Rail Project

Design

Benchmarking international best practices allows PPP parties to collaboratively deliver the best experience.

Construction

Drawing on efficient and sustainable methodologies supports a network for the future.

Operations & Maintenance

Clear contractual arrangements have enabled the PPP to deliver exceptional customer experience into network performance.

Community Safety

Each year, *Rail Safety Week* helps to promote the importance of rail safety to the community.

Scan the QR code to view the 'near miss' video that was created using actual CCTV footage.

Stage 2A

The next stage of light rail will extend from Alinga Street to Commonwealth Park with three new stops.
